## II About the strategy

|                      |           |
|----------------------|-----------|
| Date published       | 2011 July |
| Signed by a minister | No        |
| Duration             | 60 months |
| Number of pages      | 53        |

**The approach: How does the department plan to use the broader environment in which it exists (element 1) to leverage its strengths and embrace its weaknesses (element 2) so that it can provide benefits in accordance with its vision (element 3)?**

The approach is to (i) manage the environmentally sound use of inshore finfish by sorting finfish species into groups based on their abundance or endangered status and (ii) devise management objectives for all stakeholders to adhere to for each group.

Read more about the GDS's vision on page 9.  
Is the strategy illustrated? Yes, see pages 6 and 7.

## III Assessing stakeholder usefulness

**If a public servant new to the policy area had an hour to read this GDS, would they be able to understand the approach (element 4) and the implementation and review processes (element 5)?**

The key points of the issue could have been better articulated; there is little detail regarding the context and main problems in this focus area. A public servant would have a good understanding of the outcomes sought; however, a lack of practical information as to funding and timelines makes it difficult to understand how they would be achieved. The GDS clearly sets out how it is integrated with relevant legislation.

**If an uninformed member of the public had 30 minutes to read this GDS, would they be able to understand the purpose (element 3), the approach (element 4), the implementation and review processes (element 5) and how this approach fits with the broader goals of government (element 6)?**

The overall purpose and strategic outcomes are understandable at a basic level; however, the public might desire more information as to the general issue the GDS is trying to solve. The illustration of the review and implementation process on page 33 is very informative.
