II About the strategy

Date published	2009 June
Signed by a minister	No
Duration	132 months
Number of pages	13

The approach: How does the department plan to use the broader environment in which it exists (element 1) to leverage its strengths and embrace its weaknesses (element 2) so that it can provide benefits in accordance with its vision (element 3)?

The approach is to improve investment in the ambulance sector by working with key organisations such as ACC, MoH and DHBs to establish an overall framework for ambulance sector efficiency.

Read more about the GDS's vision on page 3.
Is the strategy illustrated? Yes, see page 7.

III Assessing stakeholder usefulness

If a public servant new to the policy area had an hour to read this GDS, would they be able to understand the approach (element 4) and the implementation and review processes (element 5)?

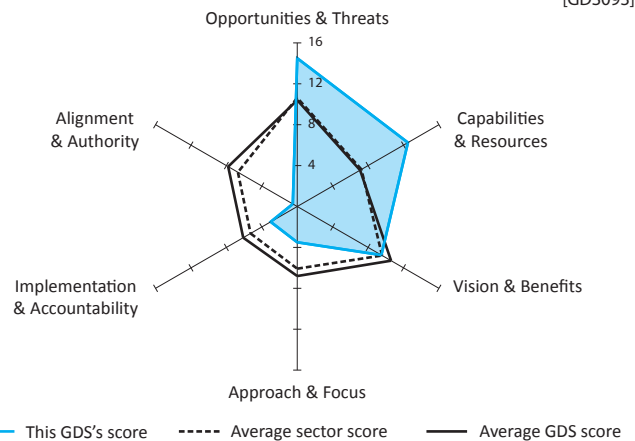

The key points of the issue are well explained; however, the discussion of how strategic outcomes will be met needs more detail. The GDS provides time frames for implementation but could be improved with information on agencies responsible and funding.

If an uninformed member of the public had 30 minutes to read this GDS, would they be able to understand the purpose (element 3), the approach (element 4), the implementation and review processes (element 5) and how this approach fits with the broader goals of government (element 6)?

The overall purpose is clear, but the structure of the GDS could be improved in order to make the strategic outcomes more understandable. There is a lack of information on review processes.
