## II About the strategy

Date published	2010 March
Signed by a minister	Yes
Duration	120 months
Number of pages	45

**The approach: How does the department plan to use the broader environment in which it exists (element 1) to leverage its strengths and embrace its weaknesses (element 2) so that it can provide benefits in accordance with its vision (element 3)?**

The approach is to isolate priority areas (towards 2020) which would increase the safety of New Zealand roads, with adjustments to objectives being made as needed.

Read more about the GDS's vision on page 3.  
Is the strategy illustrated? Yes, see page 11.

## III Assessing stakeholder usefulness

**If a public servant new to the policy area had an hour to read this GDS, would they be able to understand the approach (element 4) and the implementation and review processes (element 5)?**

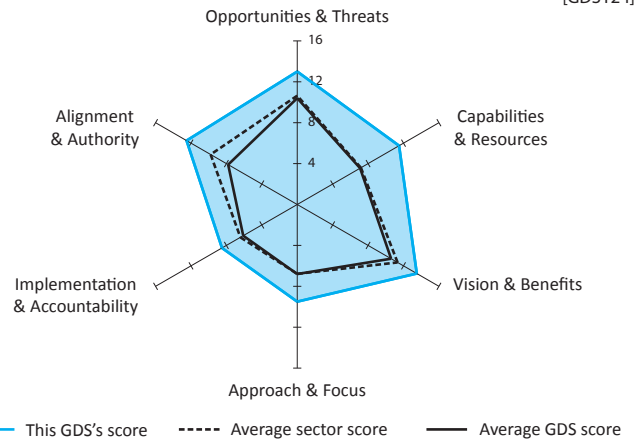

The key points of the issue are clear. The 'actions we can take' sections are informative regarding how the outcomes sought will be achieved; however, there could be more information on implementation and funding.

**If an uninformed member of the public had 30 minutes to read this GDS, would they be able to understand the purpose (element 3), the approach (element 4), the implementation and review processes (element 5) and how this approach fits with the broader goals of government (element 6)?**

The overall purpose and strategic outcomes are understandable; it is a technical GDS, but it is clearly structured. There is mention of review processes; however, it would be more helpful if contained in a separate section. The statistics and graphs in this GDS make it user-friendly.
